Symbols and other usages

The following symbols, where shown in columns of figures or elsewhere in tables, mean:

- n.a. not available
- n.e.i. not elsewhere included
- n.p. not available for separate publication (but included in totals where applicable)
- n.y.a. not yet available
 - nil or rounded to zero
 - .. not applicable
 - p preliminary figure or series subject to revision
 - r figure or series revised since previous issue
 - break in continuity of series (where drawn between two consecutive figures or columns)

Rounding Figures

Where figures have been rounded, discrepancies may occur between sums of the component items and totals.

POPULATION 1

Analysis of Table 1.1

In the March quarter 1994, Western Australia's population grew by 8,400 persons to 1,695,700. If maintained for the remainder of 1994, this will represent an annual growth rate of 2 %.

mber 1994

Analysis of Table 1.2

All categories of population grew, in particular net estimated overseas migration which accounted for 3,300 persons. After recording negative figures in the early 1990's, net estimated interstate migration has been positive for the past four quarters.

PERMANENT SETTLER ARRIVALS AND PERMANENT DEPARTURES 1984 - 1994

Analysis of Table 2.2

In 1993-94 the number of short term overseas arrivals (567,600) increased 14.5% on 1992-93. For the same period arrivals of overseas visitors (297,700) increased 27.2% and arrivals of Australian residents (269,900) increased 3.2%.

The number of overseas visitors arriving in the June quarter 1994 (65.800) was up 18.3% on the June quarter 1993.

There were 274,800 short term overseas departures of Australian residents in 1993-94, up 1.9% on 1992-93. For June quarter 1994 departures of Australian residents (69,800) was up 5.9% on June quarter 1993.

Analysis of Table 2.3

Short term overseas arrivals by air for June quarter 1994 (65,700) were down 21.2% on March quarter 1994, but up 18.6% on June quarter 1993.

There were 41,000 short term overseas arrivals by air from Asia in the June quarter 1994, an increase of 29.3% on June quarter 1993. Arrivals from Indonesia for the same period increased 100% to 7,400.

SHORT TERM OVERSEAS ARRIVALS BY AIR: PURPOSE OF JOURNEY: HOLIDAY 1992-93, 1993-94

Analysis of Table 2.5

In the June quarter 1994 there were 69,700 short term resident departures by air. This is an increase of 24.0% on March quarter 1994 departures and an increase of 6.1% on June quarter 1993 departures.

June quarter 1994 resident departures to Asia as a whole were down slightly (0.8%) compared with June quarter 1993 resident departures. However departures to the U.K. and Ireland for the same period increased 16.5% to 12,700 and departures to the United States of America increased 31.6% to 5,000.

December 1994

Analysis of Table 2.6

Of the 69,700 short term resident departures by air in June quarter 1994, 51.9% were going on holiday, 22.5% were visiting relatives and 16.5% were going to a convention or to do business.

Over 30% of holiday makers went to popular other Indonesia, with destinations being the U.K. and Ireland (15.7%) and Thailand (8.6%).

Of those residents departing to visit relatives overseas, 36.9% stated their destination was the U.K. or Ireland, and a further 11.5% said they were going to New Zealand.

Analysis of Table 2.7

Whilst the availability of all types of tourist accommodation in Western Australia has increased steadily over the last few years, there has been substantial growth in the numbers of Holiday Flats. Units and Houses available for letting. This is well indicated by increases of 5.1% in 1991-92 and 5.2% in 1992-93. The Tourism Industry has continued to meet this demand for self catering, self contained accommodation in 1993-94 resulting in an increase of 11.6% to 2.224 units as at 30 June 1994.

For more information about this table, contact Yvonne Masgai on (09) 360 5932

16 RETAIL

Analysis of Table 4.1

The data in this table have been revised and now show data from the redesigned Retail Business Survey. See Information Paper (8511.0) issued on I December

1994 or Retail Trade Australia (8501.1) for more detail on the survey redesign.

Estimated turnover of Western Australian retail establishments during October 1994 was \$956.8 million (at current prices), an increase of 3.2 per cent over the previous month. The trend estimates show an increase of 0.8% over the previous month.

From October 1993 to October 1994, trend estimates indicate a national annual growth rate of 8.4%. The annual growth rate for Western Australia for the same period was 6.4 %.

The national trend estimates show increases of 0.9, 0.9 and 0.9% for the months of August. September and October 1994. For the same three months, Western Australia recorded increases of 0.7, 0.7 and 0.8% respectively.

RETAIL.

17

Analysis of Table 4.2

The Consumer Price Index Perth All Groups September quarter 1994 increased by 0.9% over the preceding quarter. Major contributors to the increase were health and personal care (up 1.7%); transportation (up 1.6%); food (up 1.5%), tobacco and alcohol products (up 1.4%). The relatively small increases in household equipment and operation (up 0.4%) and the decline in clothing (down 0.6%) helped to keep the all groups increase to less than 1 %.

The increase in the CPI from September 1993 to September 1994 was 2.0% and contributing most to the annual increase were tobacco and alcohol (up 8.0%); health and personal care (up 4.5%) and transportation (up 3.8%). These increases were partially offset by the decline in the household equipment and operation group (down 0.3%) and clothing (down 0.4%).

Analysis of Table 5.1

The number of houses approved in October 1994 decreased by 14.8% when compared with September 1994 and decreased by 9.4% when compared with October 1993. The number of total dwelling units approved in October 1994 decreased by 23.2% when compared with September 1994 and decreased by 10.5% when compared with October 1993.

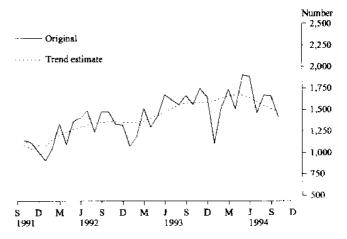

The Building Approvals trend series for houses peaked at 1,670 in April 1994 and since that time has steadily declined to a level of 1,472 in October 1994.

Analysis of Table 6.4

When compared with the previous year, coal production in 1993-94 fell by 5.4 % to 5,151,000 tonnes. All of this shortfall occurred in the last quarter of the year and was caused by the undertaking of a major economic rationalisation process by coal producers. A general move away from underground mining was the major consequence of this rationalisation.

Reduced production continued into July and August 1994 but the August figure came to within 40,000 tonnes of the August 1993 total, indicating that the industry is closing the gap by improving production from non-underground sources.

For more information about this table, contact Yvonne Masgai on (09) 360 5932

Analysis of Table 6.7

During the June Quarter, the value of Gold production rose by 5.5% and that of Iron Ore by 15.2% when compared with the March Quarter. Notable production increases in 1993-94 were Gold by 7.9% to 193.8 tonnes, nickel 13.1% to 61,000 tonnes and Iron ore by 7.1% to 119.7 million tonnes.

Analysis of Table 9.2

The pace of growth in GSP has slowed a little in the September quarter, to match the national rate of 2.2%. However the annual rate of 10.4% is well above the corresponding Australian average of 7.7%. Wages, salaries and supplements weakened compared with previous quarters to rise by only 0.8%. Although indirect taxes less subsidies increased by 2.7% in the September quarter, the annual rate was 17.2%, significantly higher than the national growth rate of 14.0%.)

FOR MORE INFORMATION . . .

The ABS publishes a wide range of information on Australia's economic and social conditions. A catalogue of publications and products is available from any of our Offices (see below for contact details).

Information Consultancy

Special tables or in-depth data investigations are provided by the ABS Information Consultancy in each of our Offices (see below for contact details).

Electronic Data Services

A growing range of our data is available on electronic media. The ABS intends discontinuing its statistical information service on DISCOVERY. Please contact Peter Davidson (Phone 06 252 6684) to discuss possible alternatives for acquiring statistics or if you wish to comment on this proposal. Our Telestats service delivers major economic publications ready to download into your computer on the day of release. Our Ausstats service enables on-line access to a data base of thousands of up-to-date time series. Selected datasets are also available on diskette or CD-rom. For more details on our electronic services, contact Information Services in any of our Offices on the numbers below.

Bookshops and Subscriptions

There are over 500 titles available from the ABS Bookshops in each of our Offices. You can also receive any of our publications on a regular basis. Join our subscription mailing service and have your publications mailed to you in Australia at no additional cost.
